# 1. Story and Opportunity

---

- Metaguro is a community-driven platform that empowers individuals to take control of their financial future. Many people face financial challenges and lack financial education, but Metaguro aims to bridge the gap by providing knowledge and opportunities for wealth creation. Our goal is to foster human connections through financial literacy and prepare for success.
-

# 1. Story and Opportunity

- Our namesake **METAGURO** is the organic combination of Meta and Kuro. Guro is Kuro, a dark horse originating from the famous novel *The Young Duke* by Benjamin Disraeli.
- In the Edo period of Japan, the then-unknown ronin Miyamoto Musashi (1584-1645), using two wooden swords, outwitted Sasaki Kojiro, the first swordsman with pure Samurai blood.
- This dark horse showdown did not come by accident; it is the result of extraordinary courage and unremitting efforts.

# 1. Story and Opportunity

- In the new age of the Metaverse, **METAGURO** is created, aiming for excellence and to achieve great self-realization. The like-minded community with a positive attitude has joined hands to conquer this Metaverse world. In the METAGURO world every one of us has the potential of being a life-changing dark horse as long as we dream big.

### 3. Hydrogen Power & Settlements

- Metaguro is committed to environmental protection and has strategically partnered with PPE, a hydrogen energy company, to make a commitment to protect our planet.
- We will work with Temasek Holdings to solve the problem of carbon emissions for international enterprises, provide industrial fund support for green hydrogen energy projects in various countries, and become the green energy settlement currency, creating an environmentally friendly, efficient, safe and transparent settlement process.
- Set up a hydrogen energy research center in Utah, United States, cooperate with the University of Utah and the National University of Singapore to establish teaching, become an international green hydrogen education center, cultivate scientific and technological talents for global industries, and build the first green energy demonstration plant in North America to set industry standards.

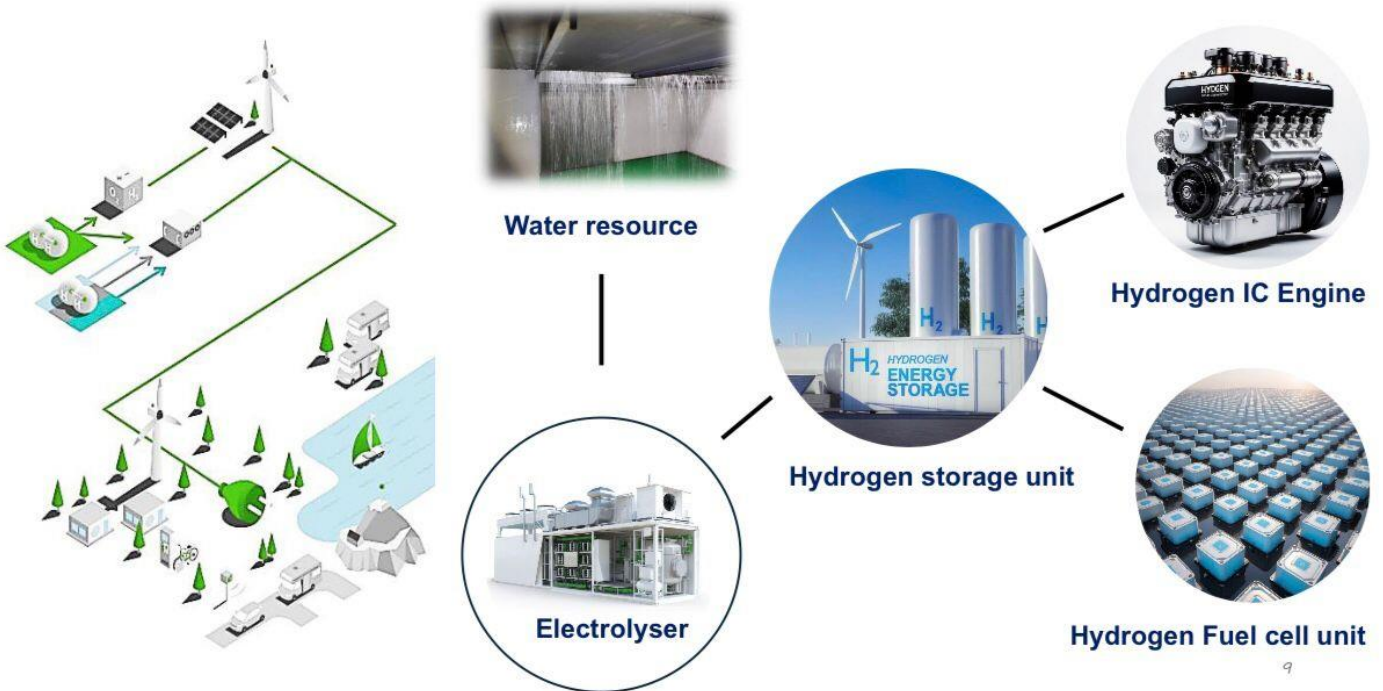

# Green hydrogen strategic route

- **Demonstration plant in Utan, United States (2024)**

--The site of the first green energy demonstration plant in North America has been completed, and with the full support of the state government and energy regulatory authorities, green energy will enter the stage of full commercial development.

# Green Hydrogen Strategic Route

## **Metaguro Greenland Green Hydrogen City Plan (2025)**

--With the severe challenge of global climate change, green hydrogen, as a clean and renewable energy source, has become the key to achieving a low-carbon economy. Green hydrogen cities represent an ideal model that relies entirely on renewable energy sources to produce green hydrogen through water electrolysis to meet the city's energy needs. -  
-EU carbon emission mechanisms, including the EU Emissions Trading System (EU ETS) and the Carbon Border Adjustment Mechanism (CBAM), provide a strong incentive and regulatory framework for green hydrogen cities.

## **Listed on the Carbon Allowance Exchange (2025)**

--Singapore's Climate Impact X (CIX) is a global carbon exchange dedicated to expanding voluntary carbon markets. Mainly for multinational enterprises and institutional investors, relying on standardized contracts, it promotes the buying and selling of large-scale and high-quality carbon credits to meet the needs of both parties for carbon credits. Metaguro Greenland's products will be listed on CIX to participate in global carbon credit trading.
